

# Netskope Public Cloud Security

## ZTNA

secure access  
to private  
applications

User

## Inline Controls

apply policy in real-time  
to user activity and data-  
in-motion

Inline protection for 270+  
AWS service APIs and  
9000+ attributes / activities

## API Integrations

operate out-of-band to manage security  
posture, protect data-at-rest, and add  
context to inline policies

Data-at-Rest  
Protection  
(CASB API, DLP)

Cloud Security  
Posture Management  
(CSPM)
